Was the conference a good investment:

Some examples of 2015 delegate testimonials:

I have gained valuable insights not only in my area of expertise but also other areas and financial services in general

Excellent opportunity to learn what's happening in different Asian countries

The event was a huge success, the topics were well chosen and one thing impressed me the most was the high standard of all the speakers

Great value for money, covers CPD and networking opportunities

This is a great opportunity, not just to learn but also to share with friends, colleagues and potential clients

It is visionary, it is knowledgeable, more importantly it is good fun!
