6) Go to Manage Presentation Screen. Select “Browse” to find the presentation file on your flash drive.

7) Select the file from your flash drive. You may select more than one. Podium accepts PowerPoint (.ppt), Adobe Acrobat files (.pdf), Word and Excel. If you need to access video files, you should either have them embedded in your presentation file or you may have to exit the software, run the video and resume the presentation in this software by starting again and advancing to the slide or page where you left off.

8) If you wish, you may manage the presentation status, such as change title. Click “Notes” to change the title or add notes. When done, click “Save” or “Cancel.”
