WHAT'S COMING

ICA 2026

ica2026.org

Theme: Tradition, Diversity, Innovation

The ICA represents an unparalleled opportunity to exchange ideas among actuarial colleagues from all over the world on the crucial topics impacting our profession. In particular, Japan, as a country at the forefront of dealing with challenges such as a declining birthrate, an aging population, and natural disasters, will provide a unique setting for ICA2026 to discuss these increasingly global issues.

A wide range of topics, not limited to longevity and natural disasters, will be presented and discussed during the congress. As Japan is a country where tradition is respected, as well as one well-known for innovative and cutting-edge technology, the atmosphere of Tokyo will inspire ICA participants to connect the actuarial profession's rich past with new ways of thinking.
